Post CSCST Fellowship in Neuropathology - Molecular Pathology

The Faculty of Pathology are now seeking applications from suitable candidates for the following Post CSCST Fellowship in Neuropathology - Molecular Pathology

- Post: Beaumont Hospital
- Duration: 1 year
- Commencing: July 2019
- Eligibility: Available as either a post-CSCST fellowship or as a specialty module for current trainees either in Histopathology or Clinical Neurosciences.

Fellowship Details

Molecular pathology can be used to diagnose disease and/or to guide the treatment of disease. This Clinical Fellowship will give the opportunity to undertake advanced clinical training as a sub specialist in Molecular Neuropathology.

Core objectives:
- To perform an intra-operative diagnosis using smear and/or frozen section techniques
- To diagnose and advise on masses/ lesions of the neurological system
- To integrate molecular oncology findings into the surgical pathology report
- To present these cases at MDT meetings.
- To present at local and international meeting
- To accurately diagnose and report pathological neurological disorders and know the importance of NGS in neurological disorders

Please contact Dr Francesca Brett (francescabrett@beaumont.ie) Consultant Neuropathologist, Beaumont Hospital to discuss the training opportunities further.

Applications Timeframe

- Close date – close of business Friday 4 January 2019
- Shortlisted candidates must be available to interview on 5 February 2019. Once you apply we will review your application and confirm your interview slot to you.
To apply interested candidates must submit the following to Lauren Kerchner (laurenkerchner@rcpi.ie):
