National GI Endoscopy Quality Improvement Programme Workshop

11th December 2018
Welcome & Introduction

Prof Steve Patchett
GI Endoscopy QI Programme Working Group Chair
Welcome - Housekeeping

- Please note the exits

- Please do sign in to receive your CPD credits
  - If you attended the ERS Forum from 12:00-13:00 please sign in for this as well to receive your extra CPD credit (+1 credit)
  - Please confirm your email address is correct to receive your CPD certificate
Workshop Format

• **Start with 3 presentations from 1:15-2:50**
  - End with 10 min Q&A session with whole group

• **Three round table discussions from 3:00-4:00:**
  - 5-10 min presentation from speaker
  - 5-10 min discussion at your round table prompted by questions provided.
  - 5-10 min recap. Each table nominates a facilitator who will present the discussion to the larger group

  - Points made during the discussions will be included in a bulletin sent out post-Workshop via email

• **Your participation is key!**

**Corrigan Hall**

**END – Please return Evaluation Forms as you depart Corrigan Hall**
2018 QI Programme Progress

• 6 Hospitals have joined the QI Programme since the last Workshop

• 34/36 Public Hospitals – Now Live on NQAIS-Endoscopy
  o 2 more public hospitals due to join the programme in the coming weeks
  o 100% of Public Hospitals performing Endoscopies will be on the QI Programme by the end of Q1 2019

• 1 Private Hospital currently in the process of joining the Programme
  o This will bring the total number of private hospitals on the Programme to 9

- Mater Private, Cork

### Not participating
- St. Francis (no ERS plan)
- Clone General
- Bon Secours Limerick (formerly Barrington's)
- St. Vincent’s Private
- Kingsbridge
Hospitals live on Programme
Developments in Endoscopy

• Hospital Group Lead structures now in place

• National Training Lead now appointed

• Ability to upload data to NQAIS-Endoscopy is now included as a prerequisite for acquiring JAG accreditation

• 3rd National Data Report has been released
  o First EQI report to use Funnel Plots
  o Introduces the idea of combining KQIs
3rd National Data Report

- Identifying your hospital in the National Data Report:
  - Hospitals have the same ID as the previous two reports
  - ID can be confirmed with your Clinical Lead
  - If Clinical Lead is unsure, they can confirm with Hospital Group Clinical Lead.
  - Private Hospitals can confirm their unit ID with the EQI Programme Team
Next Steps for the QI Programme

• De-anonymization of hospital level data in coming National Data Reports
  o The EQI Programme move towards de-anonymising future National Data Reports to Unit level
  o This will be a gradual process
  o Bringing the reports into line with other HSE reporting standards

• Complete roll out of NQAIS-Endoscopy in Q1 2019

• Embedding the use of NQAIS data in hospitals
Upcoming NQAIS Upgrade

• To facilitate the interpretation of data the QI Programme will be redeveloping NQAIS-Endoscopy

• Move towards a dashboard style of reporting that will utilise users preferred graph types
  ○ Surveys and evaluation forms from last year’s Workshop have informed these preferences

• The EQI Programme will be in touch in Q1 of 2019 to recruit units who are interested in testing the new system when developed
Thank you
