INTERNATIONAL CLINICAL  
FELLOWSHIP TRAINING PROGRAMMES

## OBSTETRICS AND GYNAECOLOGY

ACADEMIC YEAR 2021/2022

## OBSTETRICS AND GYNAECOLOGY

### Become a World-Class Specialist

The Royal College of Physicians of Ireland is an internationally recognised postgraduate college dedicated to the education and training of medical doctors.

Training doctors to become world-class specialists is at the heart of what we do. We believe that being a doctor is one of the most rewarding and important professions there is and we are committed to helping you reach your full potential.

We offer postgraduate specialist training programmes, examinations, diplomas and educational courses to equip doctors with the skills and knowledge they need to care for patients and run safe and efficient healthcare systems.

Our training programmes incorporate both clinical and non-clinical training, and are designed to produce skilled, confident doctors who can provide world-class medical care and handle the everyday challenges of a busy health service.

### Hands-On Structured Training

Ireland has a long-standing tradition of providing postgraduate specialist medical training to international doctors. RCPI has, in collaboration with the Health Service Executive of Ireland, developed a range of programmes designed specifically to meet the needs of international medical graduates.

The International Clinical Fellowship Programme (ICFP) provides a route for overseas doctors wishing to undergo structured and advanced postgraduate medical training in Ireland. The ICFP enables suitably qualified overseas postgraduate medical Trainees to undertake a fixed period of active training in clinical services in Ireland. The programme is offered over two to three years of clinical training, after which the overseas doctors will return to their country of origin.

The purpose of the ICFP is to enable overseas Trainees to gain access to structured training in active clinical environments that they cannot get in their own country, with a view to enhancing and improving the individual's medical training and learning and, in the medium to long term, the health services in their own countries.

### International Clinical Fellowships available in the following specialties:

- Gynaecology Surgery
- Labour Ward Management
- Maternal Medicine
- Vaginal Urogynecology Surgery

### Train with a Consultant

This Programme will allow you to access a structured period of training in leading hospitals around Ireland. You will follow a structured curriculum and be attached to a consultant trainer and will fully participate in the clinical work of your trainer's team.

Participation in on-call is viewed as a key component of training and therefore Trainees on the International Clinical Fellowship Programme are advised that they may be required to participate in the on-call rota of their department.

### Structured Educational Programme

As well as workplace based learning you will have the opportunity to gain additional learning through our formal educational programmes including:

- Study days
- Mandatory and optional courses
- Society Meetings and Conferences
- Lectures
- Journal club
- Audit
- Research

These elements of the training programmes give doctors an opportunity to expand their knowledge base within their speciality as well as hone the core knowledge and clinical judgement skills needed to enhance their career and take up senior positions.

*“It is every Trainee’s dream to have a Fellowship which is tailored to their needs. I was lucky enough to have this during my training with RCPI. The people are friendly, it was a stress-free training environment, and I felt they respected cultural differences. The registration process was simple and the team were helpful throughout the entire Fellowship. It was a great experience.”*

Dr Fatima Washahi  
Clinical Fellowship graduate in Maternal Medicine

## Supporting your move to Ireland

We know that moving to another country involves a lot of preparation and paperwork. We are committed to making this process as easy as possible for you, once you have been accepted onto our international training programme.

The support we offer in association with Castel Education, an agency that specialises in supporting international students coming to Ireland, includes:

- English language tutoring
- Visa and immigration assistance, including liaising with the Irish Embassy on your behalf
- Helping you apply for registration with the Irish Medical Council
- Helping you make travel arrangements
- Collecting you at the airport in Ireland
- Helping you find suitable accommodation
- Helping your family members move to Ireland, e.g. finding suitable schools
- Assistance with setting up banking and mobile phone accounts
- Emergency telephone support

*“Once accepted onto the programme, RCPI have a dedicated team to help with the registration process step-by-step, until you are completely settled in Ireland. They were fantastic, and were available for queries throughout the entire Fellowship.”*

Dr Fatima Washahi  
Clinical Fellowship graduate in Maternal Medicine
