MRCPI Part II O&G OSCE/Clinical

As our clinical examinations are delivered in a hospital setting and require close contact with real patients, there is a lot of complexity associated with delivering these examinations. We will be guided by public health advice and will work closely with the clinical exam boards and others as to the best way to proceed. We realise these are important examinations, but we need to deliver them in a way that is safe, and still maintain the standard and integrity of the examination process. We will have further information in due course.

Please, check our latest update on clinical exams in the link below:
